I have examined the above-named student and completed the preparticipation physical evaluation. The athlete does not present apparent clinical contraindications to practice and participate in the sport(s) as outlined above. A copy of the physical exam is on record in my office and can be made available to the school at the request of the parents. If conditions arise after the athlete has been cleared for participation, the physician may rescind the clearance until the problem is resolved and the potential consequences are completely explained to the athlete (and parents/guardians). **INDIVIDUAL ELIGIBILITY RULES (Grades 9 through 12)**

**ATTENTION ATHLETE:** Your school is a member of the IHSAA and follows established rules. To be eligible to represent your school in interschool athletics, you:

1. must be a regular bona fide student in good standing in the school you represent; must have enrolled not later than the fifteenth day of the current semester.
2. must have completed 10 separate days of organized practice in said sport under the direct supervision of the high school coaching staff preceding date of participation in interschool contests. (Excluding Girls Golf – See Rule 101)
3. must have received passing grades at the end of their last grading period in school in at least seventy percent (70%) of the maximum number of full credit subjects (or the equivalent) that a student can take and must be currently enrolled in at least seventy percent (70%) of the maximum number of full credit subjects (or the equivalent) that a student can take. Semester grades take precedence.
4. must not have reached your twentieth birthday prior to or on the scheduled date of the IHSAA State Finals in a sport.
5. must have been enrolled in your present high school last semester or at a junior high school from which your high school receives its students . . .
   . . . unless you are entering the ninth grade for the first time.
   . . . unless you are transferring from a school district or territory with a corresponding bona fide move on the part of your parents.
   . . . unless you are a ward of a court; you are an orphan, you reside with a parent, your former school closed, your former school is not accredited by the state accrediting agency in the state where the school is located, your transfer was pursuant to school board mandate, you attended in error a wrong school, you transferred from a correctional school, you are emancipated, you are a foreign exchange student under an approved CSIET program. You must have been eligible from the school from which you transferred.
6. must not have been enrolled in more than eight consecutive semesters beginning with grade 9.
7. must be an amateur (have not participated under an assumed name, have not accepted money or merchandise directly or indirectly for athletic participation, have not accepted awards, gifts, or honors from colleges or their alumni, have not signed a professional contract).
8. must have had a physical examination between April 1 and your first practice and filed with your principal your completed Consent and Release Certificate.
9. must not have transferred from one school to another for athletic reasons as a result of undue influence or persuasion by any person or group.
10. must not have received in recognition of your athletic ability, any award not approved by your principal or the IHSAA.
11. must not accept awards in the form of merchandise, meals, cash, etc.
12. must not participate in an athletic contest during the IHSAA authorized contest season for that sport as an individual or on any team other than your school team. (See Rule 15-1a) (Exception for outstanding student-athlete – See Rule 15-1b)
13. must not reflect discredit upon your school nor create a disruptive influence on the discipline, good order, moral or educational environment in your school.
14. students with remaining eligibility must not participate in tryouts or demonstrations of athletic ability in that sport as a prospective post-secondary school student-athlete. Graduates should refer to college rules and regulations before participating.
15. must not participate with a student enrolled below grade 9.
16. must not, while on a grade 9 junior high team, participate with or against a student enrolled in grade 11 or 12.
17. must, if absent five or more days due to illness or injury, present to your principal a written verification from a physician licensed to practice medicine, stating you may participate again. (See Rule 3-11 and 9-14.)
18. must not participate in camps, clinics or schools during the IHSAA authorized contest season. Consult your high school principal for regulations regarding out-of-season and summer.
19. girls shall not be permitted to participate in an IHSAA tournament program for boys where there is an IHSAA tournament program for girls in that sport in which they can qualify as a girls tournament entrant.

This is only a brief summary of the eligibility rules.

You may access the IHSAA Eligibility Rules (By-Laws) at [www.ihsaa.org](http://www.ihsaa.org)

Please contact your school officials for further information and before participating outside your school.

CHURUBUSCO JR-SR HIGH SCHOOL
WAIVER AND RELEASE OF LIABILITY FOR ALL SPORTS

STUDENT/ATHLETE ___________________________ SCHOOL YEAR ___________________________

(PRINT)

We are aware that trying out, practicing, playing, or any other form of participation in any sport can be a dangerous activity involving MANY RISKS OF INJURY.

We understand that the dangers and risks of playing or practicing any sports include, but are not limited to, death, serious neck and spinal injuries which may result in complete or partial paralysis, brain damage, serious injury to virtually all bones, joints, ligaments, muscles, tendons, and other aspects of the muscular-skeletal system and serious injury or impairment to other aspects of the body, general health and wellbeing.

We also understand that the dangers and risks of playing or practicing any sport may result not only in serious injury, but in serious impairment of my future abilities to earn a living, and to engage in business, social, and recreational activities and generally to enjoy life.

Because of the dangers of participating in any sport, we recognize the importance of listening to and following all of the coach’s instructions and warnings regarding playing techniques, training methods, rules of the sport and other teams and school rules. We also recognize the importance of reading and adhering to all written instructions and written warnings regarding playing techniques, training methods, rules of the sport and other teams and school rules. We understand that all instructions and warnings, verbal and written, are incorporated by reference into this agreement and I hereby expressly promise to obey all such instructions and warnings.

In consideration of the Smith-Green Community School District permitting the above name student/athlete to try out, practice, play, or in any other way participate for Churubusco Jr-Sr High School athletic teams, and to engage in all activities related to the teams, including practicing, conditioning, playing, and traveling, I HEREBY VOLUNTARILY ASSUME ALL OF THE RISKS AND HAZARDS ASSOCIATED WITH SUCH PARTICIPATION AND I AGREE TO WAIVE ALL CLAIMS OF WHATEVER NATURE, fully and finally, now and forever, for myself, my estate, my heirs, my administrators, my executors, my assignees, my successors, and for all members of my family, and to release, exonerate, discharge and hold harmless the above named school district, school, their trustees, officers, agents, servants, employees, successors, and assigns, their athletic staffs, all coaches, assistant coaches, athletic trainers, physicians, and other practitioners of the healing arts treating me, from any kind and nature whatsoever, which may result from or in connection with my participation in any type of activity related to the Churubusco Jr-Sr High School athletic program.

Insurance: Churubusco Jr-Sr High School administrators, coaches, nurse, and trainers are safety conscious and are trained to instruct athletes in the safe and proper techniques of their individual sport(s). Due to the nature of athletic activity, however, injury may occur. While the school provides the opportunity for such participation, the parent retains the right of denial of such participation and must carry the responsibility for providing medical care and insurance for their son or daughter. Parents are required to have an insurance policy to cover athletic injuries and cost of treatment. Contact the Main Office for information about insurance plans which can be purchased by parents through the school to cover their student-athlete. In recent years, the IHSSAA has also carried catastrophic insurance to cover major injuries incurred during participation in approved IHSSAA sports programs. More information about the IHSSAA plan is available upon request in the Athletic Office. IT SHOULD BE NOTED THAT NEITHER THE IHSSAA NOR CHURUBUSCO JR-SR HIGH SCHOOL CARRY ANY KIND OF FIRST DOLLAR MEDICAL INSURANCE FOR ATHLETIC INJURIES.

As the parent/legal guardian of the above name student/athlete, I HEREBY ACKNOWLEDGE THAT MY CHILD/WARD ASSUMES ALL THE RISKS ASSOCIATED WITH SUCH PARTICIPATION, I EXPRESSLY CONSENT TO SUCH PARTICIPATION BY MY CHILD/WARD AND I AGREE TO WAIVE ALL CLAIMS OF WHATEVER NATURE, fully and finally, now and forever, for my child/ward, for myself, my estate, my heirs, my administrators, my executors, my assignees, my successors, and for all members of my family, and to release, exonerate, discharge and hold harmless the above named school district, school, their trustees, officers, agents, servants, employees, successors, and assigns, their athletic staffs, all coaches, assistant coaches, athletic trainers, physicians, and other practitioners of the healing arts from any and all liability, which may result from or in connection with his or her participation in any type of activity related to the Churubusco Jr-Sr High School athletic program.

We hereby authorize the release of any and all information relating to the athletic participation of the above named student/athlete to the media and to college scouts and recruiters, including any medical information concerning injury or illness, any biographical information, and any other information related to athletic participation, including ability, attitude, and conduct.

As a prospective student/athlete of Churubusco Jr-Sr High School, I acknowledge that participation in athletics is a privilege, not a right, which carries with it varying degrees of honor, responsibilities, and sacrifices. I also acknowledge I have read the Churubusco Jr-Sr High School Athletic Code of Conduct (located in the Student Handbook), and understand the expectations of my conduct and the consequences of non-compliance.

PARTICIPATION AGREEMENT
STUDENT RANDOM DRUG-TESTING PROGRAM
SMITH-GREEN COMMUNITY SCHOOLS

This form must be signed by both student and parent (and returned to the school) prior to participating in any extra-curricular activity or being issued a parking permit.

Participant Name (Print): ____________________________
Current Grade: _________

I, the undersigned participant choose to participate in Smith-Green Community Schools (check those that apply):

___ Extracurricular Activities (e.g., athletics, clubs, student council)
___ Co-curricular Activities (e.g., New Era, band)
___ Driving Permit Program
___ Voluntary Participant Program

I consent to take drug, alcohol and tobacco screening test in accordance with SGCS policies and procedures. I consent to provide an oral fluid specimen and to have a drug-testing laboratory designated by SGCS perform a substance abuse analysis on the specimen.

I consent to the release of the results of the analysis by the drug-testing laboratory to the authorized district personnel via electronic or other means, e.g., telephone, facsimile, computer.

I understand that my failure to consent to drug, alcohol and tobacco screening tests will cause me to be ineligible to participate in the activities and programs listed above.

I understand that the results of such tests will be considered toward determining my continued eligibility for participation in the activities and programs listed above.

I understand that positive test results will be communicated to administrators, coaches, directors, and leaders of the activities and programs listed above.

I understand that a copy of the results will be communicated to the student and parents.

I understand that this participation agreement will remain in effect for one calendar year from the student's last involvement in the activities and programs listed above.

CHURUBUSCO EXTRA-CURRICULAR/CO-CURRICULAR CODE OF CONDUCT AND ATHLETIC CODE OF CONDUCT

The school reserves the right to modify these procedures or guidelines as situations vary. This handbook is meant to be a guideline; not a complete policy statement of the Churubusco High School Rules. These policies apply to all extra-curricular and co-curricular participants.

Section I. Policy Statement:
It should be recognized by both athlete and Smith-Green Community School Corporation that the enjoyment and participation in sporting events is a privilege open to students who maintain the requirements of the SGCS Extra-curricular/Co-Curricular Code, the Indiana High School Athletic Association (IHSAA), and specific policies of their sport. Extra-curricular participants in violation of any of these requirements are no longer considered in "good standing" and are not eligible for athletic participation according to the specified sanctions. Any extra-curricular participant who becomes a member of a SGCS team must hold himself/herself up to standards and live up to expectations that would make the Churubusco community proud.

This code is designed to apply an even-handed brand of justice with some degree of flexibility. Clearly, the major implementation of moral and physical standards must be relegated to the parents of the respective athlete; however, in an athletic and school atmosphere, Smith-Green Community School Corporation feels justified in stating certain minimum requirements to govern the behavior of the Churubusco High School Extra-Curricular Participant.

A SGCS student-athlete must not reflect discredit upon the school nor create a disruptive influence on the discipline, good order, moral, or educational environment in the school in order to remain eligible. Any student-athlete who has removed themselves from a team either explicitly (i.e. informing a coach or school representative) or implicitly (i.e. ceasing to attend practices or a contest without the coach's permission) is no longer considered a team member in "good standing" and will therefore be subject to sanctions specified under the Extra-Curricular Code Penalties. If a code violation occurs outside an athlete's sport season or spans into the next season, the code will be applied in the next season the athlete participates in, providing the athlete finishes in good standing in both effected seasons.

Any member of a SGCS athletic team during his/her sport's season, out of season while school is in session, or during vacation periods which includes the summer months will be subject to the Extra-Curricular Code. If a student-athlete uses or has in his/her possession tobacco, alcohol, drugs, or controlled substances unless prescribed by a doctor, he/she will be subject to the Extra-Curricular Code Penalties.

The SGCS extra-curricular council take the position that at no time should students choose to use tobacco, alcohol, or drugs unless prescribed by a doctor. Choices that one makes have a direct impact on the directions one takes as an individual grows into adulthood. Choices of whether to drink or not to drink alcohol and choices of lifestyles in one's environment have great impact on young individuals. It is also understood that the first line of responsibility should rest with the parents in the home to supervise the growth and development of their student-athlete. It is also recognized that young people will make choices while growing up and should be made responsible for those choices. Respect, responsibility, understanding, and enforcement of the Extra-Curricular Code are important for the athletes, coaches, and parents.

An extra-curricular participant is subject to this code from their first enrollment at Churubusco Jr./Sr. High School to completion of his/her last sport season at Churubusco Jr./Sr. High School. If he/she does not participate during a school year(s) or is under athletic suspension, he/she is considered to be an athlete and
any violations during non-participation or athletic suspension may be brought before the Extra-Curricular Council.

Section II: Extra-Curricular/Co-Curricular Code Penalties
The following are punitive results of code violations administered from the extra-curricular council, which are minimal when the school becomes aware of the violation. When the student-athlete brings it to the attention of the extra-curricular council, there may be a reduction of penalty for first offenses (except penalty D: Felony) through the Churubusco Jr-Sr High School “Treatment Clause”.

A. Drugs or Controlled Substances
The extra-curricular/co-curricular participant who uses or has in his/her possession drugs or controlled substances, unless prescribed by a doctor, will be suspended from participation for one calendar year. Possessing, using, transmitting, or being under the influence of any narcotic drug, hallucinogenic drug, amphetamine, barbiturate, marijuana, or intoxicant of any kind is considered a code violation. (School related and off SGCS property)

B. Over-the-Counter Prescription/Medications
The extra-curricular/co-curricular participant who either abuses or deals (sells or distributes) over-the-counter prescription/medications will be suspended from participation for one calendar year. Abuse is defined as intentionally exceeding the recommended dosage to achieve an altered physical or mental state. (School related and off SGCS property)

C. Use or possession of tobacco or alcohol while traveling to/from an event or during participation
The extra-curricular/co-curricular participant who uses or has in his/her possession tobacco or alcohol will be suspended from participation for one calendar year. Freshmen may be exempt from the previous year requirement. (School Related and off SGCS property)

D. Felony
Any extra-curricular/co-curricular participate who commits a felony at any time shall be excluded from athletic participation for (up to) one calendar year from the date (of the commission of such act.) No “treatment clause” is provided for this offense. Continuation in a sport or on a squad until a determination of whether the commission of the offense occurred is contingent upon the decision of the Principal and Athletic Director. For the purposes of this section, “felony” includes any act which if committed by an adult would be a felony under Indiana law.

E. Misdemeanor
Any extra-curricular/co-curricular participant who commits a misdemeanor shall be excluded from extra-curricular participation for (up to) one calendar from the date (of the commission of such act.) Continuation in a sport or on a squad until a determination of whether the commission of the offense occurred is contingent upon the decision of the coach. For the purposes of this section, "misdemeanor" includes any act which if committed by an adult would be a misdemeanor under Indiana law.

F. School Disruptions
Any extra-curricular/co-curricular participant that is in violation of school rules such as truancy, suspension, classroom disruption, or other punishable acts is not in accordance with the Extra-Curricular Code and will be disciplined by the already established school rules. The extra-curricular participant may further be dealt with within the structure of each coach’s rules for his/her sport. If an athlete is suspended out of school for any reason, they will be ineligible for all contests during the
term of the suspension. Athletes serving in-school suspension or out-of-school suspension cannot practice during the suspension time, nor attend any events.

TREATMENT CLAUSE
The finding of a violation as defined in Section II by a majority vote of the Extra-Curricular Council shall result in the following penalty being applied:

First Offense: The student will be removed from all any extra-curricular/co-curricular participation for a period of up to one calendar year from the date of the offense.

- Treatment Clause: If after the first offense the student is evaluated by a licensed counselor and becomes a participant in a program that has been approved by the principal or designee, he/she may petition the Extra-Curricular council to reduce the consequences. It will be the responsibility of the student or the student’s parent/guardian to have the student evaluated by a licensed counselor. Any cost incurred as a result of the evaluation will be the responsibility of the student and the student’s parent/guardian. The consequences may be reduced to 25% of the regular season scheduled CONTESTS. In any extra-curricular/co-curricular club or organization they may be suspended from participation for one calendar month from the date of the infraction up to one calendar year. If the infraction occurs during a non-participation period the suspension will commence on the first official practice or meeting of the activity as the starting date. The student must practice with the team or applicable group but may not participate in an active performing role.

Second Offense: The student will be removed from all extra-curricular/co-curricular participation for one calendar year from the date of the offense.

Further Offenses: If there are further violations of the Code of Conduct, the student will be suspended from participation in any activities either athletic or any extra-curricular/co-curricular for the remainder of his/her high school career. The Extra-Curricular Council reserves the right to modify the penalties described in section II. The seriousness of the offense, the level of involvement by the individual athlete and the recommendations of the athlete's respective coach(es) may be considered in the

INTERPRETATIONS:

- The School Administrators are charged with implementing any extra-curricular suspensions. The length of a suspension is based upon the number of varsity contests. The extra-curricular participant shall continue to practice with the team during his/her suspension to stay in: “good standing” with the team and their possible “treatment clause” (except penalty D: Felony).

- The athletic season is defined as commencing with the first practice (IHSAA dates) and ending with the final event for that sport. Penalties for violations do take effect immediately upon verification of any violation and will include games in succession, (i.e. season schedule, tournaments, and state series, in order of competition).

- If the violation of the Code occurs in the last part of a sport season and the violator cannot fulfill the terms of his/her violation in that sport, the suspension does carry over until the suspension is fulfilled. This includes the next sport, (i.e. if the suspension is for the two football games with only one remaining, then the extra-curricular participant must also miss his/her first basketball game or wrestling match or baseball game until the suspension has been fulfilled). The extra-curricular participant must finish the “next sport” in “good standing” for the completion of the suspension to be considered fulfilled.

- If there are two violations to be considered (Code of Conduct and Academic Eligibility), then the Code violation suspension is to begin once grade eligibility is maintained. The two violations are not to be
served simultaneously. An extra-curricular participant cannot serve a suspension of an activity they are not eligible to participate.

Section IV. Evidence:
The Extra-Curricular Council and reviewing bodies shall consider only competent and trustworthy evidence in the fair determination of the extra-curricular participant's rights. The Extra-Curricular Council and reviewing bodies will not be bound by any formal rules of evidence in their finding of fact. The Extra-Curricular Council will find that a violation has occurred only when the weight of the evidence indicates that a violation has occurred by a particular extra-curricular participant.

Section V. Appeal:
A finding of a violation and the imposing of a penalty by the Extra-Curricular Council may be appealed to the Superintendent or his/her designee in writing. The Superintendent may designate a hearing examiner and a meeting will be set up for the formal appeal. The hearing examiner will preside over the meeting. The hearing examiner will listen to the student and his/her parents, will listen to a representative of the review committee, and will make a decision based upon the information presented. The hearing examiner shall make his/her findings known to the superintendent. The superintendent will then notify the parents of the hearing examiner's findings and the superintendent's final decision.

Publications on the Internet, in print, or through electronic devices:
The widespread use of the internet and other electronic media has made it increasingly clear that this category needs to be addressed. Students who participate in extra-curricular activities serve as ambassadors of the SGCS Corporation. As a result, students (who participate in extra-curricular activities) who engage in behavior that is made public through written or photographic means, blogs, emails, web pages, etc. and is contrary to the accepted rules and values of the SGCS Corporation may be subject to discipline. Behaviors that are contrary to the acceptable rules and values of SGCS include, but are not limited to the following: defamatory or threatening language; nudity or partial nudity; material of a sexual nature or sexual innuendo; promotion of alcohol, drugs, tobacco or other such substances; promotion of gangs, weapons, or violence; and other lewd or socially unacceptable behavior.

Coach/Sponsor rules and regulations:
Each coach/sponsor of a particular sport/activity may have additional rules and regulations and expects students to meet these standards. These rules and regulations will be properly distributed and reviewed by all participants in the particular sport season or any extra-curricular/co-curricular season before the activity begins. The sponsor or coach must give the athletic director and/or the principal a current list of additional rules and regulations, which are approved in advance by the athletic director and then distributed, to parents and students by the coach or sponsors.

IC 20-34-7 and IC 20-34-8 require schools to distribute information sheets to inform and educate
student athletes and their parents on the nature and risk of concussion, head injury and sudden cardiac
arrest to student athletes, including the risks of continuing to play after concussion or head injury.
These laws require that each year, before beginning practice for an interscholastic or intramural sport, a
student athlete and the student athlete’s parents must be given an information sheet, and both must
sign and return a form acknowledging receipt of the information to the student athlete’s coach.

IC 20-34-7 states that a high school athlete who is suspected of sustaining a concussion or head injury in
a practice or game, shall be removed from play at the time of injury and may not return to play until the
student athlete has received a written clearance from a licensed health care provider trained in the
evaluation and management of concussions and head injuries.

IC 20-34-8 states that a student athlete who is suspected of experiencing symptoms of sudden cardiac
arrest shall be removed from play and may not return to play until the coach has received verbal
permission from a parent or legal guardian of the student athlete to return to play. Within twenty-four
hours, this verbal permission must be replaced by a written statement from the parent or guardian.

Parent/Guardian - please read the attached fact sheets regarding concussion and sudden cardiac arrest
and ensure that your student athlete has also received and read these fact sheets. After reading these
fact sheets, please ensure that you and your student athlete sign this form, and have your student
athlete return this form to his/her coach.

As a student athlete, I have received and read both of the fact sheets regarding concussion and sudden
cardiac arrest. I understand the nature and risk of concussion and head injury to student athletes,
including the risks of continuing to play after concussion or head injury, and the symptoms of sudden
cardiac arrest.

SUDDEN CARDIAC ARREST
A Fact Sheet for Parents

FACTS
Sudden cardiac arrest is a rare, but tragic event that claims the lives of approximately 500 athletes each year in the United States. Sudden cardiac arrest can affect all levels of athletes, in all sports, and in all age levels. The majority of cardiac arrests are due to congenital (inherited) heart defects. However, sudden cardiac arrest can also occur after a person experiences an illness which has caused an inflammation to the heart or after a direct blow to the chest.

WARNING SIGNS
There may not be any noticeable symptoms before a person experiences loss of consciousness and a full cardiac arrest (no pulse and no breathing).

Warning signs can include a complaint of:
- Chest Discomfort
- Unusual Shortness of Breath
- Racing or Irregular Heartbeat
- Fainting or Passing Out

EMERGENCY SIGNS – Call EMS (911)
If a person experiences any of the following signs, call EMS (911) immediately:
- If an athlete collapses suddenly during competition
- If a blow to the chest from a ball, puck or another player precedes an athlete's complaints of any of the warning signs of sudden cardiac arrest
- If an athlete does not look or feel right and you are just not sure

How can I help my child prevent a sudden cardiac arrest?
Daily physical activity, proper nutrition, and adequate sleep are all important aspects of lifelong health. Additionally, parents can assist student athletes prevent a sudden cardiac arrest by:
- Ensuring your child knows about any family history of sudden cardiac arrest (onset of heart disease in a family member before the age of 50 or a sudden, unexplained death at an early age)
- Ensuring your child has a thorough pre-season screening exam prior to participation in an organized athletic activity
- Asking if your school and the site of competition has an automatic defibrillator (AED) that is close by and properly maintained
- Learning CPR yourself
- Ensuring your child is not using any non-prescribed stimulants or performance enhancing drugs
- Being aware that the inappropriate use of prescription medications or energy drinks can increase risk
- Encouraging your child to be honest and report symptoms of chest discomfort, unusual shortness of breath, racing or irregular heartbeat, or feeling faint

What should I do if I think my child has warning signs that may lead to sudden cardiac arrest?
1. Tell your child's coach about any previous events or family history
2. Keep your child out of play
3. Seek medical attention right away

SUDDEN CARDIAC ARREST
A Fact Sheet for Student Athletes

FACTS
Sudden cardiac arrest can occur even in athletes who are in peak shape. Approximately 500 deaths are attributed to sudden cardiac arrest in athletes each year in the United States. Sudden cardiac arrest can affect all levels of athletes, in all sports, and in all age levels. The majority of cardiac arrests are due to congenital (inherited) heart defects. However, sudden cardiac arrest can also occur after a person experiences an illness which has caused an inflammation to the heart or after a direct blow to the chest. Once a cardiac arrest occurs, there is very little time to save the athlete, so identifying those at risk before the arrest occurs is a key factor in prevention.

- Taking only prescription drugs that are prescribed to you by your health care provider
- Being aware that the inappropriate use of prescription medications or energy drinks can increase your risk
- Being honest and reporting symptoms of chest discomfort, unusual shortness of breath, racing or irregular heartbeat, or feeling faint

What should I do if I think I am developing warning signs that may lead to sudden cardiac arrest?

1. Tell an adult – your parent or guardian, your coach, your athletic trainer or your school nurse
2. Get checked out by your health care provider
3. Take care of your heart
4. Remember that the most dangerous thing you can do is to do nothing

What is a concussion?
A concussion is a brain injury. Concussions are caused by a bump, blow, or jolt to the head or body. Even a “ding,” “getting your bell rung,” or what seems to be a mild bump or blow to the head can be serious.

What are the signs and symptoms?
You can’t see a concussion. Signs and symptoms of concussion can show up right after the injury or may not appear or be noticed until days after the injury. If your teen reports one or more symptoms of concussion listed below, or if you notice the symptoms yourself, keep your teen out of play and seek medical attention right away.

How can you help your teen prevent a concussion?
Every sport is different, but there are steps your teens can take to protect themselves from concussion and other injuries.
- Make sure they wear the right protective equipment for their activity. It should fit properly, be well maintained, and be worn consistently and correctly.
- Ensure that they follow their coaches’ rules for safety and the rules of the sport.
- Encourage them to practice good sportsmanship at all times.

What should you do if you think your teen has a concussion?
1. Keep your teen out of play. If your teen has a concussion, her/his brain needs time to heal. Don’t let your teen return to play the day of the injury and until a health care professional, experienced in evaluating for concussion, says your teen is symptom-free and it’s OK to return to play. A repeat concussion that occurs before the brain recovers from the first—usually within a short period of time (hours, days, or weeks)—can slow recovery or increase the likelihood of having long-term problems. In rare cases, repeat concussions can result in edema (brain swelling), permanent brain damage, and even death.

2. Seek medical attention right away. A health care professional experienced in evaluating for concussion will be able to decide how serious the concussion is and when it is safe for your teen to return to sports.

3. Teach your teen that it’s not smart to play with a concussion. Rest is key after a concussion. Sometimes athletes wrongly believe that it shows strength and courage to play injured. Discourage others from pressuring injured athletes to play. Don’t let your teen convince you that s/he’s “just fine.”

4. Tell all of your teen’s coaches and the student’s school nurse about ANY concussion. Coaches, school nurses, and other school staff should know if your teen has ever had a concussion. Your teen may need to limit activities while s/he is recovering from a concussion. Things such as studying, driving, working on a computer, playing video games, or exercising may cause concussion symptoms to reappear or get worse. Talk to your health care professional, as well as your teen’s coaches, school nurse, and teachers. If needed, they can help adjust your teen’s school activities during her/his recovery.

If you think your teen has a concussion:
Don’t assess it yourself. Take him/her out of play. Seek the advice of a health care professional.

It’s better to miss one game than the whole season.
